THOUSANDS OF RUSSIANS SLAUGHTERED.

Tokio, October 17.—News of the great battle continues to arrive from the front. The most striking feature is the terrible record of Russian dead. Before the severe fighting of October 14th Gen. Oku's army alone recovered and buried 2000 making the total number of Russians buried by the Japanese, with Nodzu's army still to be heard from, 6500. Applying the usual calculations and making reasonable allowance for the fighting of the 14th and 15th, the Russian losses will exceed 40,000. Fragmentary reports of Japanese casualties are coming in. Gen. Oku, up to and including October 14th, lost 3,500 men. Estimates of the total Japanese losses are not possible but they are small in comparison with the frightful losses of the Russians.

TEN THOUSAND DEAD ON THE FIELD.

Tokio, October 16.—Field Marshal Oyama estimates the Russian dead left on the field, including the fighting of October 15th, at over 10,000.

RUSSIANS RETREAT.

Mukden, October 15, via Pekin 16.—(With the Russian army centre.)—After six days of the hardest kind of fighting this section of the Russian army fell back last night on Sakhe river now holding a position on its side. Fighting which commenced shortly after noon on October 9th has been in progress ever since.

LARGER THAN LIAO YANG.

Mukden, October 16.—There was a lull in the battle yesterday but the fighting was continued to-day. The army is southwest of here ten miles. It is now certain that the army will be able to extricate itself. Losses amount to 30,000. It has been a bigger battle than that of Liao Yang. Russians are attacking on the right to-day.

BURIED TWO HUNDRED.

Tokio, October 16.—Gen. Oku reports that he found and buried 200 Russians after the battle on October 14.

A SAGACIOUS RETIREMENT.

Headquarters of the Russian western army, October 12, via Mukden, October 13, via Pekin, October 14.—The most fierce and important fighting that has taken place since the battle of Liao Yang reached its height at noon to-day when after a bold attack which lasted for three days the Russians began a sagacious retirement from the positions they held yesterday and the Japs by a strong central movement forced the Russians five miles to the northward. The battle which was forecasted in a despatch filed by the Associated Press correspondent October 11, reached a stage of unusual severity on that day along the railway and to the westward, culminating in the vicinity of Tausanpu which place was the correspondent's centre of observation. By the evening of the 11th 60 wounded had reached the field hospital situated at the Siulentsu railway station, ten miles from the front. The battle at this moment was observed from Hungas hill two miles south east of Siulentsu. Both the Japanese and the Russian batteries were distinguished by the clouds of dust which were raised by the confusion. The result of the fight was that a mile of ground along the front west of the railway was lost but the Russians regained this ground during the night by a bayonet attack without a shot being fired. The battle was renewed at dawn to-day with terrific effect. The eastern army were evidently engaged in continuous small arm firing. There can be heard the breaking of shells along the front hills about five miles from the railway. There was an entangled artillery duel in the vicinity of Tausanpu to the westward in which during the day one regiment was caught by a cross fire and threatened with extinction. Tausanpu was held until noon when the Japs made good their occupation and Col. Stackovitch who had made a magnificent stand for four days fell back before the terrible onslaught of the Japs. The Japanese proved their ability to utilize the strong positions at the Yantai coal mine which the Russian advance guard reported had not been utilized up to October 10th. Russians moving in that direction were unable to occupy the position owing to the developments of the past few days.

WITH THE TEACHERS

AT THEIR CONVENTION

In Strathcona Public School. Important Resolutions Adopted. Edmonton next year.

The eighth annual convention of the Northern Alberta Teachers' Association opened on Thursday morning in the Grandin street school house, Strathcona, Mr. Wm. Rea, president of the association, occupied the chair. After the meeting had been called to order the following committees were appointed to report at the business meeting. Finance committee, Committee on Resolutions, and a Committee to prepare a programme for the convention to be held the following year.

The president, according to the usual custom, delivered a short address to the assembled teachers. He dwelt briefly upon the important political questions at present engaging the attention of the Dominion, and the prosperity of the country; and enlarged upon the immeasurable influence of the teacher upon the future welfare of the state and the character of its citizens. He urged upon the teachers the great necessity of maintaining the highest possible position in the estimation of the people at large, a result to be obtained only by keeping before them a high ideal of dignity of the profession, and by performing faithful and earnest work, whether intending only to teach for a few months or years or to make it a life long occupation.

A paper was then delivered by Mr.

N. Tweedie on "Birds and their Habits." The paper reflected great credit upon Mr. Tweedie, as a close student of nature, and was accompanied and illustrated by a particularly fine collection of North-West birds eggs, pronounced by Inspector Perrett to be far superior to anything in that line that he had seen in the educational exhibits at the Dominion Fair at Winnipeg.

The next paper was read by Mr. G. E. Ellis upon the "History of Methods in Mathematics." Mr. Ellis pointed out many reasons which made arithmetic of great importance in a complete course of education, and illustrated several interesting and profitable methods of teaching the subject.

Mr. C. H. Russell, of Fort Saskatchewan, then presented a paper on Versification. He confined himself almost entirely to the study of the subject itself, touching only lightly upon the teaching of a few of its branches.

In the afternoon session, Miss Zola Campbell, of Edmonton, taught a very instructive lesson on History to a class of small pupils, proving very forcibly by her work, the advantage of associating the teaching of history and geography.

Inspector Perrett followed with a paper on Composition, showing up clearly its main difficulties to teachers, and the importance of proceeding with written work by clear and definite thinking on the part of the pupils. He also showed how necessary it was for teachers themselves to use only correct and carefully chosen English before their pupils. In the discussion which followed, the proper place of spelling in composition work was brought out.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 28, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clause 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantial.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
 N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily a "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—its smoking quality—fragrance and pungent deliciousness, is conserved to the smoker intact.

DISASTROUS GALE

ON NEWFOUNDLAND COAST

It is feared that numerous homebound fishing boats have gone to the bottom.

Bulletin Special Dispatch.
St. Johns, Newfoundland, October 16.—For eight hours the worst gale of the season has been raging here. It is feared that it must have wrought havoc among the fishing fleet.

Large numbers of vessels are homeward bound, as the season has closed, and inevitably many have foundered.

ITALY DISTURBED

THE EXTREME PARTY

Stirring up trouble in the Army and grave danger threatens. Outrage at Milan.

Bulletin Special Dispatch.
Genoa, October 17.—The following despatch from Rome, evidently mutilated by the censor, was received here: "The Minister of War has addressed a circular to the military authorities saying that there was recent rioting. The extreme party tried to induce the soldiers to disregard discipline and rebel. Hymns were distributed to the soldiers, who destroyed the copies or gave them to their superiors. A subversive propaganda in the army is seen, but it is powerless against the sense of duty strongly rooted in the Italian army. Still there is at present a grave danger which must be fought."

At Milan the esutcheons of the foreign consulate were defaced and the hayard turned by an ex-Italian anarchist.

HOUSE OF DEPUTIES

Bulletin Special Dispatch.
Boston, Mass., October 15.—The House of Deputies of the Episcopal general convention, after a four days' debate to-day rejected an amendment to a divorce canon which was to prevent the re-marriage of divorced persons by clergymen of the church. While the House of Bishops may yet act in the matter it is certain that no change will be made by the present convention. The present law of the church allows re-marriage of the innocent party to a divorce granted for infidelity.

THE LONDON STOCK MARKET.

Bulletin Special Dispatch.
London, October 17.—Business in the stock exchange was dull the early part of last week owing to an increase in the German bank rate, but it rallied later. All divisions of the market improved. Americans especially were strong. Japanese securities rallied after a depression caused by the news that General Kuropatkin was assuming the offensive. Russians did not flinch greatly under the reverses sustained in the Far East.

RED CROSS ACTIONS

Bulletin Special Dispatch.
Washington, D.C., October 16.—The Emperor and Empress Dowager of Russia conferred on the Countess Cassini and Madame Boutakoff, Russian naval attaches with the Russian Red Cross Society, for which they received considerable money in the United States.

SLOCAM DISASTER

THE NATIONAL COMMISSION

Fixed the responsibility and orders the dismissal of three Inspection Officers.

Bulletin Special Dispatch.
Washington, October 17.—Investigation into the Slocum disaster by the national commission created for the purpose has been completed, and a report of the commission made public. It directs that Robt. S. Bradie, supervising inspector of the second district steamboat inspection service, James A. Dumont, and Thos. H. Barrett, local inspector in charge of the port of New York, be discharged. The commission holds them directly responsible for the laxity in steamboat inspection, to which the Slocum disaster is directly attributed.

PAID HIS RESPECTS

Bulletin Special Dispatch.
Washington, D.C., October 16.—Count Cassini, Russian Ambassador to the United States, who returned to Washington yesterday, paid respects to Secretary Hay.

OLD VETERAN DIES

Bulletin Special Dispatch.
New York, October 16.—Brig-General Wm. S. Worth, U.S.A., retired, is dead, aged 81 years. He served in the Civil War, several Indian campaigns, and in Cuba.

LADY CURZON IMPROVING

Bulletin Special Dispatch.
Walmers Castle, England, October 16.—A bulletin issued to-night announces an improvement in Lady Curzon's condition. This afternoon she will be removed to Walmers castle.

Milner will not Re-consider

London, October 12.—Lord Milner, government commissioner of the Transvaal and Orange River Colonies has twice previously resigned, but was induced to re-consider his resignation, which now is irrevocable. Lord Milner comes home at Christmas, and after consultation with him his successor will be appointed. Col. Sir Edward Ward, at present under secretary of state for the War Office, and formerly director of supplies of the South African field forces, is considered likely to get the appointment. Sir Edward has great administrative ability, and is wholly disconnected with the past political or financial history of South Africa, so his appointment would not engender the antagonism which might be aroused by the nomination of a better known politician.

MEETING AT EXCELSIOR

On Wednesday evening last a meeting to discuss the public questions of the day was held in Excelsior school house. The school was filled with electors. Mr. Morris was in the chair. Jas. McGeorge, Edmonton, was the only speaker. He explained clearly the points at issue in the present election contest. At the conclusion of the meeting a hearty vote of thanks to Mr. Oliver for his services as the representative of the district in the past, and a vote of confidence in him for the future were unanimously carried. Meeting moriville.

MEETING AT MORINVILLE

A very successful political meeting in the interests of F. Oliver, M.P., was held in Chevening Hall, Morinville, Saturday evening. The large hall was crowded to the doors. F. Oliver was the first speaker. He was given a very attentive and an enthusiastic hearing. Messrs. Ewing Larivier and Lambert spoke on behalf of R. Secord. Wilfrid Gariepy and others addressed the meeting on Mr. Oliver's behalf in the French language. The meeting closed with prolonged cheering for Mr. Oliver.

—Regina Leader, October 12: Mr. J. A. Whitmore, the veteran opponent of this city, died suddenly last night at 11 o'clock. The deceased gentleman has been a resident of this city for years. He appeared to be in his usual good health during the day, and in the evening had been in the office and in conversation with some of the post office clerks had signified his intention of going on a shooting expedition. Shortly after going to his room he was seized with an acute attack of asthma and choked to death. Deceased was 61 years of age, and had recently married his second wife. The funeral will be held to-morrow, and will be under the auspices of the A. F. and A. M.

WITH THE TEACHERS

Continued from page two.

An interesting paper on "Fruits and seed dissemination" by Miss J. Gram brought the afternoon session to a close.

The visiting teachers were entertained at the Assembly Hall for the evening by the town staff of teachers.

On Friday morning Mr. A. E. Hutton, Edmonton, gave a paper on "Gallstones." He showed the importance of the subject, and the benefits to be derived from it, not only in its physical effects, but also as a valuable training in habits of self control, discipline and thoroughness. He supplemented his paper by a practical illustration of the handling of a class of boys in physical drill outside in the school grounds.

The balance of the forenoon was taken up by a business meeting. Reports were brought in by the various committees appointed the previous day. The programme for the 1905 convention was placed on the blackboard. Resolutions were brought in by the committee on resolutions and adopted by the convention, asking the Educational Department

To provide more effectively for enforcing regularity of attendance of pupils.

To fix a minimum teacher's salary of six hundred dollars a year.

To authorize a series of stant writing copybooks.

To revise the regulations regarding examinations in standards III and VIII.

Votes of thanks were tendered to the retiring officers of the association, and to the Strathcona staff for the entertainment provided on Thursday night.

It was decided to hold the next annual convention at Edmonton. The reports of the delegates to the Territorial Teachers' Association were adopted, and delegates appointed for the coming year. The election of officers was then proceeded with, and resulted as follows:

Hon. president, the Mayor of Edmonton at the time of meeting.

President, T. J. Dwyer.

Vice-presidents, Miss Lyle, Mr. Weir, and Mr. Tweedie.

Sec. Treas., Miss Livingstone.

On Friday afternoon a paper was delivered by Mr. Thompson, of Strathcona, on the value of conventions. Their primary value was their educational function. Young teachers derived great assistance from those of wider experience, while they in return were brought into contact with new ideas and fresh methods, and prevented from falling into a narrow routine of work. Great stress was laid upon the enthusiasm required in the teachers' work, and so many were more effective in inspiring and keeping alive this enthusiasm. Their social side was also of importance, and they had a decided value in bringing the needs of the schools to the Educational Department.

A paper on progressive exercises in drawing, profusely illustrated by blackboard examples, was then presented by Mr. A. E. Hutton.

The regular work of the convention was brought to a close by an exceedingly interesting and valuable paper by Insp. Perrett, on various matters connected with school work and management.

At this stage an announcement was made which caused sincere and general regret among the assembled teachers of the inspectorate. It was announced that Mr. Perrett had been called by the Educational Department to Regina, and that he was to leave Edmonton in a couple of months. A strongly worded resolution was immediately passed expressing the unbounded regret of the Northern Alberta teachers at Mr. Perrett's departure, and wishing him and Mrs. Perrett every success for the future.

This brought to a close one of the largest and most successful conventions ever held by the teachers of this district.

REVILLON BROTHERS STORES.

C. N. R. GRADING

AT VEGREVILLE

Being Rushed Forward. Other Items of Interest from the Busy Capital of the Vermillion.

Two large outfits of graders are working between Bowtell's Col. and Birch Lake, while there are three or four other large outfits at work between Birch Lake and the Vermillion River. The nearest graders are about four miles to the north-east of Vegreville. Work is going ahead rapidly and it is to be hoped that it will continue to do so for at least the remainder of the present month.

A great deal of old and new oats have been sold to the C. N. R. from our immediate vicinity; 85c per bushel being realized for grain in 500 bushel lots.

Besides absorbing a great deal of the grain the C. N. R. has secured all available men and teams to carry on their grading operations. This is a good thing as money has been and is exceedingly scarce in this country.

Dr. Turner, honor graduate of McGill university, has located in our midst. Few villages of sixty inhabitants in size can boast the presence of two doctors.

Mrs. Whitney, of Warwick, met with an exceedingly painful accident last week. It appears that she was driving, and owing to some cause the team became unmanageable and ran away. Mrs. Whitney leaped from the wagon, and as a result broke her leg. As the fracture is a

compound one it will be some time before it will completely healed, but under the careful treatment of Dr. Rush Mrs. Whitney is progressing very favorably.

Mr. Glaspell, teacher of the Imperial district, returned from Edmonton last week. He went to meet his wife.

Two beings designated by "Irunk, noisy and incapable" found accommodation during one night last week in the newly established Vegreville Penitentiary.

Mr. Ed. Robertson, of the firm of Robertson Bros., left last week for St. Louis, Mo., where he goes to attend the famous world's fair. Mr. Robertson was given a free return ticket to St. Louis, and \$100. The gift from the International Harvester Company, in return for the large business done this year by Robertson for the said Company. We understand that they sold more farm machinery for the company than any other agency in the North-West Territories or British Columbia. We indeed congratulate Messrs. Robertson on their success. If diligence and perseverance will bring success then Robertson Bros. will certainly attain it.

Vegreville is famine stricken at present as there is a dearth of coal, oil, flour and vinegar. We have three large stores here, and all three stores are out of three of the most staple articles. Some people have burned candles for two weeks, while others have had to borrow first one bottle and then another of the precious fluid called kerosene. A while ago there was no sugar in the village, and as a result a large quantity of black currants were spoiled, and became totally unfit for preserving purposes. As this is the

vegetable pickling season most of good housewives are holding their tempers simply by saying nice things daily about our good merchants.

PLEASED WITH EDMONTON

Fred C. Lang, of St. Paul, Minn., travelling agent for the St. Paul, Minneapolis and Omaha railway, arrived in the city Friday evening and left for the south Saturday morning. The railway company with which Mr. Lang is connected receives thousands of letters from United States farmers enquiring regarding suitable farming districts to which to emigrate. It is in connection with this department of enquiry that Mr. Lang is kept continually travelling throughout the length and breadth of the continent. Recently the eyes of the United States farmers, especially those occupying rented farms or mortgaged farms are turned Canadawards, and Mr. Lang's present trip is to collect information to lay before these people regarding western Canadian lands. He has been through British Columbia, and was greatly impressed with its mineral resources. His visit to south central and northern Alberta in particular, has opened his eyes to the agricultural possibilities of this district, and he will report favorably on it. On his first visit to Edmonton he was greatly surprised to find a city of such substantial progressiveness, and wonders that we have been without railway communication so long. Mr. Lang will return to Edmonton shortly, when he will take a trip through the surrounding districts.

AT THE CHURCHES.

Rev. D. G. McQueen occupied the pulpit of the Edmonton Presbyterian church yesterday morning and evening.

The Baptist church services were taken by the pastor Rev. A. M. McDonald who spoke on "Christ and the common people."

The Kinistino avenue Methodist church services were taken in the morning by Professor Race of Alberta College and in the evening by Rev. Mr. Cox. The choir sang a very pleasing anthem entitled "Depth of Mercy." A quartette "Remember Me O Mighty One" was especially enjoyed.

In the College avenue Methodist church Rev. Huestis conducted both services. In the morning he commenced a series of sermons on "How to make the bible more real." Yesterday the literary aspect of the subject was considered and a very interesting sermon delivered.

Rev. H. A. Gray conducted both services in All Saints church.

PERSONAL

Mrs. R. L. Crawford will receive at her home on Fifth street east near the Public Hospital on Tuesday and Wednesday afternoons next, and the first and third Wednesday thereafter.

E. Mitchner of Red Deer arrived in the city Saturday evening.

Rev. Principal Riddell, of Alberta College, conducted services at Maple Creek yesterday in the interests of the college. He will attend the Methodist missionary convention in Calgary this week before returning to Edmonton.

Mrs. Miquelon, formerly of Wetaakwin, left this morning for Calgary, from where she leaves for her home in Sherbrooke, Que.
